

# RISING AT THE CUSP OF TRANSFORMATION

Being Noida's primary port of entry, when approached from Jewar International Airport, Sector 150 also benefits from being easily accessible to the Greater Noida populace. It's because of this proximity to the new international airport, the upcoming film city and other important landmarks that the Noida Authority is developing Sector 150 as a mega-sports city.

Around 80% of the sector has been earmarked for green development. The 40-acre Shaheed Bhagat Singh Park, which is right opposite City Centre 150, gives the location of the high street greater strategic importance within the overall layout of the sector. And with a host of retail, dining & entertainment options, it is set to become the preferred destination of not only the residents of Sector 150, but also of surrounding areas, including Greater Noida.
